

ANNUAL MEETING 2026

geomorph.at

Austria's geomorphology network

We are interested in landscapes and earth surface processes and connect researchers, students and practitioners on one platform for exchange, collaboration, and fresh ideas.

Our annual meeting is where the community reconnects and builds new momentum. The schedule is designed to foster open discussion, new perspectives, and informal exchange, because the best ideas rarely come from everyday routines.

Thursday 15th Oct.

Icebreaker
ECS Workshop
Poster session*

* Short pitches on subject-specific or community-related topics and room for feedback and discussion.

Friday 16th Oct.

Association meeting
Election of the new speaker team
Excursion**
Social evening

** Hike to Simonyhütte with a focus on high mountain geomorphology, changes in the cryosphere and karst processes.
(~12km, ~700m elevation gain)

Saturday 17th Oct. (optional)
Community hike

Location

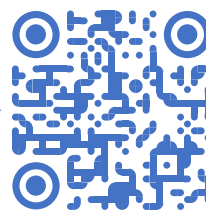

Gjaid-Alm at Dachstein mountains
Access from Obertraun
Via Krippenstein-Gondola
Luggage transport is possible

Participation

Everyone interested in Geomorphology is welcome.
We especially want to invite ECS.
